

We allocate Gold, Silver and Bronze times for riders on each ride based upon the following average speeds:

80 mile Classic ride: 16mph+ = GOLD & 12.5mph+ = SILVER. Rest get Bronze.
So, sub 5hrs for 80miler Gold and sub 6:30 for 80miler Silver. Rest get Bronze

The 38mile Scenic ride is 15mph+ for Gold and 11mph+ for Silver. Rest Get Bronze
So, sub 2:30 for 38 Miler for GOLD Sub 3:30 for 38miler for SILVER. Rest get Bronze

I have also added Categories for Open (male and Transgender), and Female - Some transgender riders obviously rode in tight formation with the rest of their male or female teams. Where that happened I have allocated an appropriate category for all team members.
The categories are also based on age. Note that for G/S/B in Category I have used an extra 11% time allowance for Females.

So you can see how you did in comparison with all on your ride, OR all in your category on your ride.

The calculations are shown below but awards are really on average speed not exact time.
(my apologies for lack of rigour - I'll get some better figures next year!)
